## One-Day Training Program on

# ROOT CAUSE ANALYSIS

(2<sup>nd</sup> Batch)

**Day & Date:** Wednesday, 08<sup>th</sup> June 2022 **Time:** 10:00 AM to 05:00 PM

**Venue:** FGI Business Centre, Sevasi, Vadodara

**About the Training Program:** All of us have come across situations where an unidentified problem halts a seamless process, and we try to analyze the reason for it by identifying its core or "root cause". A root cause is the core issue that puts the entire cause-and-effect reaction in motion, which ultimately leads to the problem(s). The Root Cause Analysis (RCA) of an issue is an effective way of adequately treating a problem than merely treating its symptoms.

The ability of a team in solving problems depends largely on its ability to identify its "Root Cause". Identification and validation of Root Cause is a critical decision-making skill for people at all levels.

**After the success of the first batch of this training, the 2nd batch is organized to train the participants to develop a logical thinking process and improve their ability to quickly identify the root cause of problems in an individual capacity or in a team.**

### Programme Content:

- **Overview**
  - Why RCA?
  - The Problem-Solving process
  - Selecting an approach
- **Defining the Problem**
  - 5W2H Analysis
- **Funnelling Process**
  - The Cause Funnel
