Workshop on OVERVIEW OF WORLD CLASS MANUFACTURING (WCM)

TIME:
10:00 AM to 05:00 PM

**10
APRIL
2024
WEDNESDAY**

VENUE:
FGI Business Centre
Sevasi, Vadodara

ABOUT THE WORKSHOP:

World class manufacturing (WCM) is a management ideology for producing the greatest and most cost-effective products or services in a timely manner. In today's ever-changing market, industry leaders must do more than just develop high-quality products. They must also consistently deliver goods on time and at an affordable price.

That's where WCM comes in. It's about ensuring quality, delivery, and cost to keep an organization competitive - whether your marketplace is local, national, or global. Essentially, WCM is a set of guiding principles for successfully operating and managing a manufacturing company. It revolves around the continuous improvement of production processes and systems to achieve excellence in efficiency, quality, and customer satisfaction.

For better deliberation on this subject matter, FGI has organized a Workshop on Overview of World Class Manufacturing (WCM) which focusses on eliminating waste and reducing costs by optimizing production processes and minimizing defects and errors. It also emphasizes the importance of employee involvement and empowerment, promoting a culture of continuous improvement and innovation.

After this training, the participants will be able to:

- 1) To identify the Bottlenecks and eliminate them set standard process.
- 2) Principles, tool and techniques of World Class Manufacturing.
- 3) Understand the concepts of Business excellence, competitiveness and customization of product for manufacturing.
- 4) How the Organization-wide integration is initiated and to be practiced.
