# Mainstreaming Biodiversity for Environmental Sustainability

**Day & Date:** Wednesday 23<sup>rd</sup> August, 2023 | **Time:** 04:00 PM to 05:30 PM (Followed by High Tea)

**Venue:** FGI Business Centre, Sevasi, Vadodara

## ABOUT THE PROGRAM:

Viewed through the lens of the Net Zero concept, biodiversity has gained recognition as not just an environmental concern, but as a fundamental pillar of the economy. As the world grapples with the imperative to reduce carbon emissions and mitigate climate change, biodiversity has emerged as a critical component that supports sustainable businesses. Beyond its vital role in climate regulation and economic stability, biodiversity offers a unique opportunity for the business community to reevaluate their operations and strategies, moving towards a nature-positive future. Recognizing this, companies can integrate biodiversity considerations into their core business models, aligning their practices with the preservation of ecosystems and the well-being of the planet.

In view of the above background, FGI and Sustaina Greens has organized this seminar to help industries to understand concepts, policies, laws/regulations and various related project execution plans.
