FGI Knowledge Center on Sustainability

INTRODUCTION

The Federation of Gujarat Industries has established a FGI Knowledge Center on Sustainability to help member companies build robust ESG practices and meet the growing expectations of regulators, investors and value chain partners. We are now constituting an Advisory Board of sustainability leaders from Gujarat's pioneer industries and we would like to invite you to be part of it.

ABOUT THE CENTRE

- A one-stop ESG hub for FGI member companies across Vadodara's industrial belt
- Trusted, vetted ESG consultants empanelled across both E and S, ready to serve member companies with assessments, compliance, reporting and advisory
- Partnered with leading universities for ESG curriculum development and applied research
- Building a network of Worker Facilitation Centres across Vadodara's GIDCs to strengthen business systems

WHAT IS THE ADVISORY BOARD?

The Advisory Board brings together senior sustainability professionals and business leaders from Gujarat's most forward-thinking companies. Its role is to guide the strategic direction of the Centre, share real-world expertise with member companies beginning their ESG journeys and amplify the Centre's credibility and reach within the business ecosystem.

AS AN ADVISORY BOARD MEMBER, YOU WILL:

- Mentor and guide FGI member companies on ESG adoption and best practices
- Represent your company as a sustainability champion and thought leader in Gujarat's industry ecosystem
- Shape the Centre's research agenda and capacity building priorities
- Participate in the Centre's annual industry-academia roundtable and key convenings
- Contribute to building a community of practice around responsible business in Gujarat

THE COMMITMENT

Companies are invited to nominate a representative from their sustainability team or senior leadership/management to serve on the Advisory Board.

Approximately 1-2 meetings per quarter plus occasional input on specific workstreams. This is a voluntary role; your contribution is your expertise and your voice.

We would be delighted to have you on board. Please reach out to us to learn more or confirm your participation.
