

**FEDERATION OF
GUJARAT INDUSTRIES**

ISO 9001: 2015 Certified

FGI Centre for Knowledge in Sustainability

Your one-stop
ESG partner, helping
Gujarat's industries meet
tomorrow's sustainability
expectations today.

Who We Are

The FGI Centre for Knowledge in Sustainability supports member companies across Vadodara's industrial belt in building strong ESG practices, helping them stay compliant, competitive and future-ready.

Through trusted, vetted ESG consultants empanelled across both E and S, and strategic partnerships with leading universities and industry champions, the Centre connects companies with the expertise and networks they need to make ESG work for their business.

What We Offer

ESG Advisory: Baseline assessments, gap analysis, BRSR reporting and buyer readiness.

Expert Mentorship: Guidance from sustainability champions within Gujarat's pioneer industries.

Capacity Building and Training: Workshops for management, HR/IR teams and workers at all levels.

Workforce Support: Connecting your workforce to government schemes and social security at no cost to your company.

Research and Knowledge: Applied ESG research developed in partnership with leading academic institutions.

Why it matters

S — Social

200M+

informal workers engaged across
Indian industry

80% have no social
security access

5-12 top business risks
are worker-related

Only **2%** of companies issue formal contracts to
contractual workers

E — Environmental

India is the world's **3rd largest
greenhouse gas emitter**

**SEBI now mandates environmental disclosures for India's
top 1,000 listed companies.**

Supply chain buyers, both domestic and global, are already
asking for Scope 3 emissions data from their vendors.

Non-compliance with environmental standards is among the
top reasons Indian exporters lose international contracts.

ESG is no longer optional. It is your competitive edge.

How to Engage

Whether you are just beginning your ESG journey or looking to strengthen existing practices, the Centre is here to support you step by step.
